

World Patient Safety Day

Issued by [COHSASA](#)

5 Sep 2022

To mark the annual World Patient Safety Day, three organisations - Cohsasa of South Africa, AfHQSA of Ghana and C-CARE (IHK) of Uganda are collaborating to bring you the latest thinking across Africa regarding medication without harm - the theme for this year's World Health Organization (WHO) third global patient safety challenge.

The graphic is a promotional banner for a World Patient Safety Day webinar. It features an orange background with a white border. At the top, there are logos for COHSASA, AfHQSA, WHO, and C-care IHK. Below the logos, the text "WORLD PATIENT SAFETY DAY" is written in large, bold, white capital letters, followed by "Join our webinar!" in bold, blue lowercase letters. At the bottom, there are five circular headshots of the webinar participants, each with their name and title below them: Jacqui Stewart: Chairperson, Dr. Brad Beira, Dr. Diana Nakato Lapyem, Dr. Ventrine Marion Chelimo, and Dr. Elom Hillary Otchi.

This challenge aims to reduce the global burden of iatrogenic medication-related harm by 50% within five years.

Join us to hear new ideas, visions and solutions to address medication-related adverse events which cause untold death and suffering around the world.

DATE:

16 September 2022

12:00 GMT | 14:00 SAST | 15:00 EAT
