

Digital AI Intern

Location:

Cape Town

Company:

[Highbury Media](#)

Are you fascinated by the world of artificial intelligence and eager to dive into the realm of digital innovation? We're thrilled to offer an exceptional opportunity for a digital intern to join our dynamic team within the AI training department.

Highbury Media T/A Habari Media is a media powerhouse, whose world-class titles connect brands to targeted audiences. We are currently seeking a digital intern - AI training to join our team.

Responsibilities:

- Assist in creating and curating digital content for AI training materials.
- Collaborate with AI trainers to optimise digital resources and learning materials.
- Contribute to the design and development of interactive learning modules.
- Assist in managing and organising digital assets and training data.
- Support the team in researching emerging trends in AI training and digital education.
- Participate in brainstorming sessions to enhance training methodologies.

Requirements:

- Passion for artificial intelligence and a basic understanding of AI concepts.
- Proficiency in digital content creation tools and platforms.
- Strong communication skills and a keen eye for detail.
- Enrolled in a degree program related to relevant fields, (e.g. computer science, machine learning).
- Eager to learn and collaborate in a fast-paced, innovative environment.
- Prior experience in digital content creation or e-learning is a plus.
- Strong organisational skills and the ability to manage multiple campaigns simultaneously.
- Ability to collaborate efficiently with all teams across the departments.
- Commitment to completing work on time that meets or exceeds quality expectations.
