

Intermediate C# Full Stack Software Engineer - Angular 10+

Remuneration:	basic salary
Location:	Bedfordview
Education level:	Diploma
Job level:	Mid
Reference:	#NF58598
Company:	E-Merge IT Recruitment

New work in at an award-winning tech house and fintech, with a core focus in Biometrics and identity verification systems. The current need is for an Intermediate C# software engineer to join the team.

This is your big chance to immerse yourself in best practices among a team of top talent who are currently building robust clean code and changing the word of identity one line of code at a time.

The ideal candidate is forward-thinking, intelligent, and self-motivated with a proven track record for delivering high-quality software solutions.

This is what you need to land the job::

- Four-plus years' experience in hardcore development working with C#, .NET Core, SQL, Web API, RESTful API
- A good understanding and experience in your SOLID Design Principles SRP, Open/Close, LSP, ISP, DIP
- Object-oriented design – OOD and a love for writing flexible, scalable, maintainable, and reusable code
- Microservices for the win as well some exposure to a Microservice infrastructure
- MongoDB and SQL database
- On the front end, you have worked with Angular 10+, TypeScript, and the Vanilla JavaScript stack.
- Skills in the following are advantageous: Node.js, Flutter, Cloud (Azure or AWS), Version control (Git, SVN, TFS), Bitbucket, Docker, AKS or EKS

Do you qualify?

- Relevant three-year qualification (computer science, engineering, or similar)
- Microsoft Certifications for the win

The reference number for this position is **NF58598_2024** which is a **permanent** position (hybrid with the first few weeks in-office) based in **Bedfordview** offering a cost to company of up to **R650,000 per annum** negotiable on experience and ability.
