

Senior C# Developer

Remuneration:	basic salary
Location:	Centurion
Education level:	Diploma
Job level:	Senior
Type:	Permanent
Reference:	#NF58948
Company:	E-Merge IT Recruitment

New work in at an industry leading online digital tech environment. This role is not for the faint hearted; it's for the technically solid chap looking for some a fast-paced tech environment with rather reliant systems; You will be strategising, crafting, leading, and implementing technical solutions amongst an incredible human-centric, and fun, team, using the .NET stack, and SOLID principles.

As senior C# developer you will have the opportunity to leverage your skills in a high-energy environment by enhancing the team's performance and contributing to new and existing initiatives. Beyond the work itself, you will also enjoy the flexibility of a hybrid working model and cool company soft perks (such as free lunch) for the two days you are in the office per week.

This is what you need to land an interview:

- Eight + years' experience in hardcore development working with C#, .NET Core, SQL, Web API, RESTful API
- In-depth understanding and experience in your SOLID Design Principles SRP, Open/Close, LSP, ISP, DIP
- Object-Oriented Design – OOD and a love for writing flexible, scalable, maintainable, and reusable code
- When it comes to Microservices, you know it well and can unpack what projects you have worked on where you have implemented a Microservice infrastructure.
- MongoDB and SQL database
- By nature, you are the type of person who works hard and plays hard; you are comfortable working as part of a collaborative team without any micromanagement
