

The 2008 Beijing Olympics - Lessons to be learnt by 2010 LOC

What is our 2010 LOC doing about the opening ceremony? Have they started or are they still concerned about the completion of the stadias?

Wasn't the opening ceremony spectacular. Now my question is, have our 2010 LOC started with the preparations for the opening ceremony? I am asking because some of those actions displayed apparently took more than 8 months to practice. Since the FIFA World Cup will be hosted in our continent for the first time, I think our LOC should really put a performance that will surpass that of the olympic games. That will also help to silence the critics.
