

41 new wines added to Checkers' Odd Bins

Checkers launched 41 new limited edition wines to its Odd Bins collection of which two were awarded double gold and gold at the Michelangelo International Wine and Spirits Awards earlier this month.

Odd Bins 243 and 248 (2022 Sauvignon Blanc) won double gold and gold at South Africa's sole international wine competition.

The Odd Bins collection is available exclusively at Checkers and features limited edition vintages from local wineries. To ensure affordability and accessibility, the original label is kept secret to ensure that the wine offers the best value and selection without compromising on quality for the past 27 years. Bins are never restocked once they are sold out.
