

Warning!! - Watch out for claim to be Advertising Sales Companies that does not pay their Reps!!

There seem to be a few advertising sales companies that gives you all the smoke and mirrors, but when it comes to paying your commission they don't pay up.

I have worked for a company for about two months and did plenty of solid sales for them. But they did not pay me a cent. Other sales reps in the market needs to be warned about these companies or individuals. We crack out guts for nothing and end up having to carry the flack for not being able to pay our bills.
