

The 7th Icon Conference: "Integrating expertise - The role of multi-disciplinary teams in oncology."

The theme for this year's Icon conference is "Integrating expertise: The role of multi-disciplinary teams in oncology" and will focus on the role of multi-disciplinary teams in delivering better outcomes for patients. It underscores the critical importance of collaborative, cross-disciplinary approaches in the field of oncology.

Multidisciplinary teams foster a culture of continuous learning and development, as professionals from different backgrounds collaborate and learn from each other's experiences. This conference will showcase case studies and best practices that demonstrate how multi-disciplinary collaboration has led to advancements in cancer care.

The conference will be academically rewarding with contributions from both local and international expert oncologists, surgeons, pathologists, and radiologists. We invite all oncologists, radiation therapists, chemotherapy and pharmacy staff, medical physicists, practice managers, senior administrative staff, and stakeholders from the funding environment to attend.

The Icon 2024 Conference provides an invaluable platform for oncology professionals to share insights, exchange ideas, and explore innovative ways to further strengthen the integration of expertise within the South African oncology community.

Date: 10 May 2024 to 12 May 2024

Time: 09:00 - 13:00

Venue: Indaba Hotel and Conference Centre, Johannesburg
