

Bavaria launches two new alcohol free beers in SA

Two new products were recently launched in South Africa by Swinkels Family Brewers, Dutch owners of the Bavaria beer brand, Bavaria 0.0% beer and Bavaria 0.0% IPA.

Bayern 0.0% beer can be described as a crisp, non-alcoholic pilsner. It balances bitter and fruity tones, with a pleasant aftertaste.

Bavaria 0.0% IPA offers four specific varieties of aromatic hops that are sourced from the USA and Australia for an inviting hop aroma with juicy tropical fruits and citrus.
