

# Winners of the One Africa Partner Summit 2015 Awards announced

Winners of the Africa Channel Partner Awards were announced at the Cisco One Africa Partner Summit 2015 which took place from 23 - 25 June 2015 in Limpopo, South Africa.

The awards recognised the top-performing Cisco Channel partners across the African region. The awards are designed to recognise best-in-class business practices and serve as a model to the industry within their respective regions. Areas of consideration include innovative practices, architecture-led approach successes, strategic business outcome-focused programs, seizing new opportunities and sales approaches.

"Cisco is proud to work with our Partner Ecosystem across Africa which continues to evolve in size and type in order to best deliver customer business outcomes and expand capabilities to address new market opportunities. As countries, cities and organisations across the African continent embrace the Internet of Everything (IoE) our work with our channel partners will be key to helping customers catch the market transitions right in order to reinvent themselves," said David Meads, Vice President Cisco Africa.

All award recipients were selected by Cisco Worldwide Partner Organisation and regional executives.
