

Building a solid trade platform

This year's Hardex, the marketing exhibition for South Africa's hardware and allied products industry, will be held at Sandton Convention Centre, 15 - 17 September 2007. According to the organisers, Exhibitions for Africa, more than 70% of stands have been sold and upwards of 5000 visitors are expected. A new Garden and Outdoor Trade section is being added because of the cross-over between nurseries and garden centres with hardware stores and builders merchants.
