Intermediate C# Developer

Remuneration:	basic salary
Location:	Centurion
Education level:	Diploma
Job level:	Mid
Type:	Permanent
Reference:	#NF59072
Company:	[E-Merge IT Recruitment](#)

New work in at a global online digital tech environment with a footprint across Africa, the UK and the USA! They are looking for a technically solid **C# back-end developer to join their** fast-paced tech environment with rather reliant systems; You will be strategising, crafting, leading, and implementing technical solutions amongst an incredible human-centric, and fun, team, using the .NET stack, Microservices, and SOLID principles.

As a **C# developer** you will have the opportunity to leverage your skills in a high-energy environment by enhancing the team's performance and contributing to new and existing initiatives. Beyond the work itself, you will also enjoy the flexibility of a hybrid working model and cool company soft perks (such as free lunch) for the two / three days you are in the office per week.

This is what you need to land an interview:

- Four + years' experience in hardcore development working with C#, .NET Core, SQL, Web API, RESTful API
- A good understanding and exposure to SOLID Design Principles SRP, Open/Close, LSP, ISP, DIP
- Object-oriented design – OOD and a love for writing flexible, scalable, maintainable, and reusable code
- When it comes to Microservices, you can unpack what projects you have worked on where you aided the implementation of a Microservices infrastructure.
- Strong SQL database skills, MongoDB is a plus
- By nature, you are the type of person who works hard and plays hard; you are comfortable working as part of a collaborative team without any micromanagement and can pick up new concepts quickly

This is a team that will take your career places.

The reference number for this position is **NF59072_2024** which is a **permanent, hybrid** position based in **Pretoria, Gauteng** offering a cost to company of **R700,000 p/a** negotiable on experience and ability.
