

## '90s icons Black Box, Robin S and Crystal Waters to perform at Decade Festival

International performers Black Box, Robin S and Crystal Waters as well as local legends Boom Shaka, Marcalex and Bob Mabena will set the '90s tone at the inaugural Decade Festival at Montecasino in Fourways, Johannesburg on 7 September 2019.

Festival revellers are set to enjoy nostalgia-filled festivities brought to life by the greatest and most iconic talents from the dance floor and radio frequencies of the '90s.

Renowned SA greats DJ Fresh and Glen Lewis will also support the lineup while additional special guests and other local DJ will be announced closer to the festival date.

New York's own multiple awarding Robin S owned the dance floors with her hit single "Show Me Love" in the '90s. She has continued to make an impact across the globe with singles such as "Love For Love", "What I Do Best", "I Want To Thank You" and "It Must Be Love" as well as TV appearances and a string of tours around the globe.

One of the leading exponents of a wave of Italian house music that flourished on the dance floors of the late '80s and early '90s, Black Box churned out more than a dozen singles a year. This included "Ride On Time", which became one of the best dance selling records of all time.

Best known for 1991's "Gypsy Woman (She's Homeless)" and 1994's "100% Pure Love", Crystal Waters's genius gave us music to dance through all through the '90s. She was a global sensation in the '90s and still performs across the globe regularly.

"Our first edition of the Decade Festival promises to be an incredible day out. Musically, we have put together an unbelievable selection of the greatest and most iconic talents from the dance-floor and radio frequencies of the '90s in a

concert setting to relive one magical night of the music that is the life soundtrack to so many of us,” says event organiser Guy Herman.
