

Ethiopian Aviation Academy rated top training centre in Africa

Ethiopian Aviation Academy (EAA), has been ranked among the top World Aviation Training Centers by Aviation Voice, a global aviation news provider engaged in the ranking of global aviation training centres.

The ranking is against 18 carefully calibrated performance indicators to provide the most comprehensive and balanced ranking covering the full range of a training centre's areas of activity including number and types of programmes, opportunity of cadetship and aviation training combined with higher education studies, data on the number of students, instructors as well as information regarding the size of fleet and the network of flight training devices the training center operates, among others.

Over six decades old, Ethiopian Aviation Academy is described as a world-class aviation training centre equipped with state-of-the-art and best in class training equipment and technology offering a full range of aviation training programmes.
